Boiler Room Products Designed for Efficient Clean Operation

"Green Design Criteria"

	<p>Combustion Management Systems Parallel Positioning Controls with 3 Parameter Combustion Trim Waterlevel Control with TDS Management and 15 Firstouts</p>
	<p>High Efficiency, Low Combustion O2 burners Duel Fuel Burners from 3 to 110 MMBTU/HR Natural Gas Savings of 10% Achievable on Burner Retrofit</p>
	<p>Duel Fuel Burners from 20 HP to 2500 HP Standard or Low NOx 30 PPM burners "NOXmatic Burner" Sub 9 PPM NOx</p>
	<p>CC-600 Boiler Master Control: Boiler Sequencing Controls CC-700 Boiler Master and O2 Trim Control System</p>
	<p>Boiler Heat Recovery Feedwater Heaters Condensing Economizers, 90% Efficiency Two Stage Economizers Vent Condensers, Steam Accumulators, Custom Heat Exchangers</p>
	<p>Energy Efficient Custom Thermal Oil and Fluid Heaters Double Helical Coil. No Economizer Needed "Stack Temp Guarantee" "Real Efficiency" by LOW Stack Temperature</p>
	<p>Boiler and Mechanical Room Service and Repair Maintenance, Combustion Adjustment, Control Retrofit, Retube Piping, Pump Service, Heat Exchangers, PRV, Steam Traps Fluid and Hot Oil Heaters, Process and Industrial Control Service</p>
